Russians Elated That Japan. ese Falled to Meet Brave Rojestvensky.

Neither Collier Nor Man.o-War Has Fallen Into Enemy's

St. Petersburg Indignant at Reported Movement of Mediterranean Fleet.

T. PETERSBURG, April 20.—It is claimed here that Admiral Rojest-vensky has not overstepped the French rules of neutrality at Kamranh bay, the coaling and provisioning of his ships occurring outside territorial waters. Russia has not been advised that Japan has lodged a protest in Paris. The charges of Russia's violation of neutrality coupled with the story that Russia intends to send her Black Sea fleet through the Dardanelles, and the report that the British Mediterranean fleet has been sent to the Aegean sea to head off the Russian fleet, cause extreme irritation. The Associated Press is again authorized to state that Russia has no intention of sending out the Black Sea fleet.

thorized to state that Russia has no intention of sending out the Black Sea fleet.

The admiralty officials are quite elated over the receipt of news showing that not a single collier despatched to the Chinese sea through the straits of Sunda for the purpose of throwing the Japanese off the scent when Rojestvensky passed through the straits of Malacca, are in the hands of the Japanese. Rojestvensky reached the straits of Malacca, are in the hands of the Japanese. Rojestvensky reached the straits of Malacca before the colliers arrived at the straits of Sunda, and the Japanese then withdrew from the latter straits, having missed both the quarry and the decoys.

The admiralty is silent as to whether Rojestvensky has left Kamranh bay.

Governor General Trepoff is taking the most energetic measures to prevent trouble on May Day, having discovered that the workmen's leaders are advising all the most of the most active agitators, who will be arrested and transported to villages. About forty of the men were taken into custody last night.

The Mediterranean Fleet

ed to villages. About forty of the men were taken into custody last night.

The Mediterranean Fleet

London, April 20.—The Associated Press was informed at the admiralty this afternoon that the statement that the British Mediterranean fleet was taking steps to watch the Dardanelles is untrue.

The movements of the British ships are simply in pursuance of ordinary arrangements. The story was started on top of a continental report that the Russians were preparing to send out their Black Sea fleet.

M. Taburno, an Associated Press correspondent, who has returned from Manchuria for a short vacation during the lull in operations there, says he does not expect serious fighting for at least a month or six weeks. He says the Russian army, which is occupying a line southward of Sipinghai, is busy with reconnaissances as far south as Changtufu, and has already been recruited to the strength it had before the battle of Mukden. Many of the wounded have returned to the ranks, and the morale is excellent. The present position of the army is naturally strong.

It is persistently and circumstantially reported that Russia has bought several South American warships through Paris intermediaries.

A telegram from the seat of war in

A telegram from the seat of war in Manchuria states that the Japanese armies are advancing northward, preced-ed by cavalry.

FIVE DEAD.

New York, April 20.—Five children are dead and three dying from cerebro spinal meningitis in a tenement on Little West Twelfth street. These victims belong to the families of Mrs. David Darder and Mrs. James Frawley.

THREE CHILDREN KILLED. Explosion of Gasolene Will Probably Cause Four Deaths.

Greensburg, Pa., April 20.—An accient resulted from the explosion tonight Greensburg, Pa., April 20.—An accident resulted from the explosion tonight of a bottle of gasoline in the home of John Kunkle on Maple avenue. Three children of the family were burned to death and a fourth so frightfully injured that her recovery is doubtful. Three members of the fire department were also badly injured. The parents of the also badly injured. The parents of the children left them in charge of Mrs. Kunkle's mother, 75 years of age, while they attended holy week services. After the children had been put to bed one of them called for a drink and the grand-mother, in carrying the water to the child, tripped. In her efforts to save herself she overturned a bottle of gasoline and in an instant the room was ablaze. The property loss is \$18,000.

MOTOR BOAT OVERDUE.

Fears for Safety of Gasolene Launch From New York to Europe.

Gibraltar, April 20.—Considerable anxiety is felt here at the non-arrival of the gasolene launch Gregory. The Gregory arrived at Penta Delgada April From Bermuda it was announced t she would probably sail for Gibtar in a day or two, but no announced here. The Gregory was built Lewis Nixon, of New York. She arted from New York January 5 to make a trip to Europe by the southern route for the purpose of winning the prize of \$10.000 offered by an European enthusiast for the first motor boat to cross under her own power.

FOR UNION WITH GREECE. Deputies of Island of Canea Decide to Unite With Kingdom.

Canea, Island of Crete, April 20.-The Canea, Island of Crete, April 20.—The Cretan chamber of deputies was opened today by Prince George. The high commissioner of the Island, in his speech, blamed the revolutionists and declared his intention to grant every reasonable reform proposed.

On the withdrawal of the Prince, the chamber of deputies unanimously declared in favor of the union of Crete with Greece, and the deputies proceeded to the palace to see and inform the Prince.

GAMBLING IN COTTON OPTIONS. Interesting Point Brought up by Sully

New York, April 20.—Macgrane Cox, referee in bankruptcy in the Daniel Sully case, today sent to Judge Holt of the United States district court an opinion which, if approved by the court, will reopen the Sully case entirely, and bring up for adjudication several important and almost sensational points. If i is proved that cotton exchange transactions are gambling transactions, Sully is solvent and will not owe a cent.

WILL HANG NEXT WEEK. Slayer of Grand Duke Sergius to Hang in a Few Days.

Moscow, April 20.—Ivan Kaleieff, who killed Grand Duke Sergius and who on April 18 was sentenced to death, will be hanged next week. His brother is a member of the Guards, stationed in St. Petersburg, and his mother, who belonged to a noble Polish family, married a Russiau police sergeant of Warsaw, now deceased.

A YOUNG MAN'S SUICIDE.

Takes Morphine in Public Park in New Orleans.

New Orleans, April 20.—A well dressed young man, apparently about 24 years old, who was found lying on a bench in the city park, died soon after his removal to the hospital, of morphine poisoning. The photographs of a handsome young woman and a note were in his pocket. The latter asked that Mrs. L. Mathews, of Toronto, Ont., be notified if anything happened to him.

JOSEPH JEFFERSON'S HEALTH.

West Palm Beach, Fla., April 20.— Late this afternoon it was stated that Jefferson was stronger than at noon and continued to improve. He was cheerful and strong hopes are entertained for his recovery.

and strong hopes are entertained for his recovery.

There is every indication tonight that Jospeh Jefferson will recover. His physicians think that the worst is over. Mr. Jefferson today talked cheerfully and asked that arrangements be made for his return to his northern home. He called hourly for food and retained all that was given him.

TWO DESERTERS SURRENDER. Bluejackets From H. M. S. Egeri Break Away and Come Back.

Nanaimo, April 20.—(Special.)—Ernest Witworth and John Newman, blue-jackets who deserted from H. M. S. Egeria, and who had been under arrest for the past ten days awaiting the arrival of that vessel, broke jail early this morning and escaped to the woods. This evening the men came back to town and voluntarily surrendered to Chief Crossan, evidently finding escape from the island impossible. The Egeria arrives in a few days.

SAW CAESAR YOUNG SHOT.

in New York.

Newark, N. J., April 20.—The Vorwearts, a Jewish newspaper published here, has received a card from K. R. Rosen, 30½ Fourth street, Chicage, in which the writer says he was in New York looking for work last June, and was on West Broadway, near Chambers street, when he saw a cab containing a man and a woman. The man was evidently pleading with the woman. Suddenly the man pulled out a revolver and shot himself. Rosen hurried away and knew nothing of what happened after. He knew nothing about the "Nan Patterson case" until recently, when he read about the case in a Jewish newspaper. He is convinced that Young and Nan Patterson were the pair in the case.

MINERS' FATAL CARELESSNESS Results in Explosion That Means Death to Eight Men.

Charleston, W. Va., April 20.—A mine explosion in the Cabin Creek Mining Co.'s mine near Kayford, about thirty miles above here, late today may result in the death of five miners and the fatal injury of three others. The accident is said to have been caused by a powder explosion, the result of miners' carelessness.

About 5 o'clock, after many had left About 5 o'clock, after many had let the mine, there was a sharp report, followed by an explosion which threw debris in all directions. The tipples took fire. Nine men were still in the mine when the explosion occurred. Of these four reached safety. Three of the number were so injured that they are not expected to live. The remaining five men were still in the mine at a late hour. were still in the mine at a late hour. It is believed that these men are dead.

ROSS THOMPSON'S LUCK.

Founder of Rossland Reported to Have Another Fortune in Sight. Rossland, April 20.—When hompson, founder of Rossland,

Rossland, April 29.—When Ross Thompson, founder of Rossland, left here in the middle of the winter to go to the new goldfields of Nevada, he told his friends that he intended to make another fortune. Some of them shook their heads and solemnly remarked that it is seldom that fortune knocks twice at the same man's door.

"I intend to knock at fortune's door and see if she'll let me in again," said Mr. Thompson. "I do not intend to put her to the trouble of coming to my door."

SALVATIONIST REWARDED,
Staff Sergeant Archibald Given Permanent Position by Government.

Ottawa, April 20.—(Special)—Owing to the growing importance of the prison gate work entrusted over a year ago to Staff Sergeant Archibald of the Salvation Army, the minister of justice decided to give him a permanent appointment as parole officer. Archibald will therefore retire from the Salvation Army to devote all his time to looking after the welfare of prisoners liberated on the salvation army to devote all his time to looking after the welfare of prisoners liberated on the salvation Arm are to be freed on parole, ascertain where they desire to locate and then endeavor to give them a new start in life.

Mr. Ussher, general passenger agent of the C. P. R. enstern lines, was here to day and stated that the Imperial Limited would start from Montreal June 4.

The government has chartered the steamer Neptune, belonging to Jobb Bros., St. John's, Nid., to make another trip to Hudson's bay this year.

Governor of The Yukon

Appointment of W.W. B. McInnes Understood to Be Decided Upon.

Member for Alberni Will go to Ottawa Within Week to Discuss Policy.

With McInnes Out of Running Lampman Appears Sure of Judgeship.

PRIVATE telegrams received from Ottawa during the past few days contain the news that it is tacitly understood as settled in governmental circles that Mr. W. W. B. McInnes, member for Alberni in the British Columbia legislature, is to be appointed to the governorship of the Yukon territory, his duties as chief executive, with headquarters

which has ever since embittered the Liberal leader toward him and no doubt retarded his political advancement in natural proportion to his undoubted talents.

Entering provincial politics as member for Nanalmo, he was for a time provincial secretary in the Dunsmuir government, and at the division of the local legislature on party lines, he was by many regarded as the natural choice of the party for the leadership—a position which many impartial critics believe he is infinitely better fitted to fill than is the member for Rossland, the compromise selection of British Columbia's Liberals in the local House, who now is their accepted chieftain.

While no one will begrudge the genial, able and uncommonly magnetic and popular member for Alberni his good fortune, it will be with sincere regret that his departure from the arena of provincial politics will be witnessed. There is so little zest and fash of blades in British Columbia's parliamentary affairs, such halting and indifferent oratory, and so few signs of fire that such a redeeming personality as that of Mr. McInnes will be missed indeed.

The new governor of the Yukon is perhaps the youngest appointed to such

The new governor of the Yukon is perhaps the youngest appointee to such high office under the British flag, being as yet but in his thirty-fifth year.

FOOD FOR SALTPETRE.

Tiflis, April 20.—Notice has been served on the employees of the Tiflis-Bakurailroad that unless they return to work in three days, they will be sent to serve in the army in the Far East.

W. W. B. McINNES, M. P. P.

Dawson, to begin on the 30th of

at Dawson, to begin on the 30th of June next.

The fact that Mr. McInnes has been a candidate for the position, or as an alternative that of County court judge for Victoria, has been well understood during several months past, and at one time it was generally recognized that the appointment was as good as made.

With the resignation by Hon. Clifford Sifton of the ministry of the interior, with which the governor of the northern goldfields is directly in touch, matters were again in abeyance, but with the accession of Hon. Frank Oliver of Edmonton to the control of this important branch of the public service, the decision to name Mr. McInnes for the place was alleged quickly arrived at. Mr. McInnes is a particularly close personal, as well as political, friend of the new minister of the interior, and with Mr. Oliver there was never any question as to whom among the prospective appointees he would favor with his cordial support.

Hon. Mr. McInnes will leave for Ottawa early in the coming week, at the law of the coming week, at the law of the coming week, at the law of the place week at the coming week, at the law of the new and the coming week, at the law of the new and the coming week, at the law of the new properties and the place week and the coming week, at the law of the new and the place week and th

Mr. W. W. B. McInnes needs no introduction to British Columbians, not to the people of Canada. He is a son of the late Hon. Thomas R. McInnes, who during a long residence in this province, himself took a foremost part in public life, successively serving in the parliament, the senate and the executive mansion of this province. His son, the coming governor of the Yukon, entered public life as member of the House of Commons for Nandimo city (where he was practicing law) ten years or more ago, being, so far as known, the youngest member ever seated in the Canadian parliament; and quickly winning a place for himself among the older heads by his energy and effective style in debate—"the boy orator from British Columbia" he was duly, it informally, christened in very short order. His career at Ottawa was not of an extended character, the "boy orator" resenting the failure of the government of Sir Wilfrid Laurier to redeem its promises in the matter of Chinese Immigration restriction, and resigning in protest—a circumstance.

JAPAN PROTESTS TO FRANCE.

the believe was alleged quickly arrived as the mew minister of the interior, and with Mr. Ollver there was never any perfective appointees he would favor with his cordial support.

**North, McInner was never any perfective appointees he would favor with his cordial support.

**Hon, Mr. McInner will leave for Ottawa early in the coming week, at the request of the government, and probability and it is understood that in mediately upon his return to the Coast his return to the Coast his return to the Coast his resignation of his seat for Abreach and ministrative centre.

**The opposition will, in all probability, put forth every effort in an enditive that the standard of the seat and the for the best material in candidates the furning in the Liberal interest. As to the County judgeship, with Mr. Mainer way, Mr. J. F. Bledsoe being the first suggested as likely to make the furning in the Liberal interest. As to the County judgeship, with Mr. Mainer way, Mr. J. F. Bledsoe being the first suggested as likely to make the running in the Liberal interest. As to the County judgeship, with Mr. Molanes for the best material in candidates the running in the Liberal interest. As to the County judgeship, with Mr. Molanes for the best material in candidates the running in the Liberal interest. As to the County judgeship, with Mr. Molanes for the best material in candidates the running in the Liberal interest. As to the County judgeship, with Mr. Molanes for the particular to the county judgeship, with Mr. Molanes for the particular to the particular to the local member, Mr. Riley, has been persistently exerted.

**At the present juncture Mr. Mc. Molanes for the particular to the particular

Dominion News Notes

Ten Millions for Hundreds of New Elevators in the Northwest.

Oglivie Company to Add Two Huge Mills to Present Plant.

Louise Embarkment at Quebec Breaks and Falls in the River.

ONTREAL, April 20.—It is understood that strong financial interests contemplate the formation of a company with a capital of \$10,000,000 to \$12,000,000 for the purpose of building from three to five hundred elevators throughout the Canadian Northwest. These elevators are to be of the most modern and upto-date type, possessing the greatest facilities for the farmers. It is understood that this company will be allied with the Oglivie Interests. It is also proposed to creet one, or possibly two, large flour mills in Great Britain, the whole to be under the direction of F. W. Thompson, vice-president and manager of the Oglivie Flour Mills Company.

The Lake of the Woods Milling Company.

ager of the Ogilvie Flour Mills Com-pany.

The Lake of the Woods Milling Com-pany today made one of the most impany today made one of the most important announcements that the business and financial world has heard for some months. The company, already, one of the biggest in the British Empire, will practically triple its present capacity by the erection of a big mill in Montreal and a new mill in Winnipeg. The Montreal mill is to have a capacity of 4,000 barrels of flour per day, and the Winnipeg mill a capacity of 5,000 barrels per day. At the present time the company is in a position to turn out about 5,000 barrels daily, so that the total output when the proposed new mills are constructed will be about 14,000 barrels per day.

The lee bridge at Cape Rouge started

to the lee bridge at Cape Rouge started to break up this morning. The ice-breaker Montcalm was moved up a little and grounded, but her position is not dangerous.

Royal Bank Branches

Royal Bank Branches
Vancouver, April 20.—The Royal
Bank of Canada, which recently decided to open a branch in the Mount
Fleasant district of Vancouver, and also
one in New Westminster, has announced the opening of a branch at
Vernon, in the Okanagan valley. Hitherto the Bank of Montreal has been the
only bank operating in that district.

Suspected Murderer Arrested
St. Thomas Ont. April, 20.—A man

Suspected Murderer Arrested
St. Thomas, Ont., April 20.—A man
giving the name of A. W. Arnold, and
his home as Windsor, was arrested here
this morning on suspicion of being the
murderer of Miss Lowry at Rodney
early yesterday morning. Arnold arrived in the city from the west on the
Michigan Central freight train and
made application at the Columbia hotel
for accommodation. His face is badly
cut. He later told the police he hailed
from Detroit, not Windsor. He says
he fell off a train, which caused the injuries to his face.

Owen Sound, Ont., April 20.—The

juries to his face.

Owen Sound, Ont., April 20.—The iron warehouse of Butchard Bros. Hardware Company was completely destroyed by fire this morning, together with contents; also the offices of Dr. Howie and Greenwood's bleycle shop.

Louise Embankment Crumbles Quebec, April 20.—Some three hundred feet of the stone wall forming part of the Louise embankments bulged out and fell into Louise basin this afternoon. The accident is a serious one, but will not interfere with navigation. No one was injured.

Fire at Valleyfield. One April 20.—A disease.

Fire at Valleyfield
Valleyfield, Que., April 20.—A disastrous fire broke out at about 1:30 this morning which destroyed N. Wallot's business block opposite the City hall. The principal sufferers are: N. Wallot book and stationery store and job printing establishment; La Sallebry; Mcdonald & Robb, feed and flour store; Bell Telephone Exchange. Loss about \$18,000; partly covered by insurance.

PROCEEDING NORTHWARD

St. Petersburg, April 21.—(2:15 a. m.)-The ministry of finance has received a telegram from a giving a rumor that Vice Admiral Rojestvensky has already passed the Straits of Formosa without encountering Admiral Togo.

UNITED STATES GAME LAWS. Court Holds That Imported Birds May Be Sold at Any Time.

New York, April 20.—The pheasants, grouse and partridges imported from England and offered on sale during the close season in this state do not come under the provisions of the game laws, was the verdiet returned by a jury in the Supreme court here today. The verdiet was rendered in a suit brought by the state against Auguste Siz, the American member of the English house in tast country, to recover about \$2,000 penalities for having exposed for sale fifty imported birds last year during the close season. It was announced during the trial that the case will probably be made a test and would likely be carried to the Supreme court of the United States for final decision.

Agents Demand Hyde's Resignation

Equitable Representatives Ask Vice President to Vacate Office.

Unanimous Request Declined by Official in Snobbish Speech.

New York, April 20.—After First Vice President James P. Hyde, of the Equitable Life Assurance Society, had informed a committee of the managing agents this afternoon that it would be impossible because of the various engagements for him to address them today, the agents' convection under him to address them today, the agents' convection to the has been in session here the committee did not see Mr. Hyde, but telephoued to him at his office, and was informed that he was glad to receive the invitation, but could not accept. However, he promised to the committee, covering the situation as he conceived it. This statement, it is understood, will be circulated among the he conceived it. This statement, it is understood, will be circulated among the agents. The invitation to address the agents was followed by a committee who called on Mr. Hyde this morning with a request that he resign as an officer of the society. This Mr. Hyde declined to do in an address in which he said he would consider such an action "unworthy and disgraceful to the memory of my father, and further that it is evident from your extraordinary request and from the report of the proceedings at your meeting that you have not the remotest conception of the unfortunate controversy or the motive behind the struggle for the control of the society." In this same address he promised to write the agents tomerrow in reply to their demands.

Mr. Hyde's speech was followed by one by Joseph Bowes of Baltimore, chairman of the agents' committee, in which he stated that the request for the resignation was unantumes. These were

any personal controversy should have any place in the matters.

"I fully realize," he said, "that you gentlemen are responsible for bringing the Equitable its enormous surplus of \$80,000,000 and its assets of more than \$400,000,000. I want you to know that your interests will be safeguarded. I would shed my heart's blood to protect you and your interests. We realize that this is a very difficult work, but hope that we can make it easier before long."

CONGRESS IS PROHIBITED.

St. Petersburg, April 21.—Private circulars have been addressed to the governors of the several provinces informing them that the congress of Zemstvoists, called for May 7, has been prohibited, and instructing them to prevent the departure of delegates to that congress.

THE REVELSTOKE MURDER. Slight Clue Possessed by Police as to

Revelstoke, April 20.—(Special)— Neither the city or the provincial police have so far been able to obtain any defin-ite clue leading to the identity of the ghoulish fiend who sent Jennie Kohara, ghoulish fiend who sent Jennie Kohara, the Japanese woman, to her death. Chief of Provincial Police Bullock Webster will be up from Nelson tomorrow, and there is talk of obtaining assistance of coast detectives. Meanwhile no effort is being spared by local police to hunt down every clue, no matter how slender, with a hope of solving the mystery. W. J. Potter, a recent arrived here, today gave the police a rough description of the mere whom he saw about 4 o'clock on the mer in the ferce surrounding the woman's house. His information together with a leather hunting knife sheath, found under the woman's body, the hand marks on the counterpane of the bed and footprints are all the officials have to work on.

ALL HANDS DELIGHTED.

Epoch-making Performances of Roosevelt Duly Heralded.

Glenwood, April 20.—That President Roosevelt is enjoying royal sport in his hunt for Rocky Mountain game is attested by Secretary Loeb, who returned from the camp today with the news that the president had secured one bear. The dogs had several times caught up with the bear and had annoyed him until he was in a vicious mood. Finally, when he was at bay, the three members of the party, including the President, came up with the dogs. One dog had been killed and several others wounded, and the bear was playing havoc with the other dogs that were teasing him. To save the dogs the President had to shoot hurriedly. Every second the bear bowled over a hound and rather than see any more of the pack killed, the President took the chance of shooting among the dogs. He fired once and hit the animal in the shoulder. Firing again, he killed his game. He takes great pride in his first trophy of the hunt. Glenwood, April 20 .- That President

WAITING REINFORCEMENTS.

Neither is there any definite news regarding the progress eastward of Vice Admiral Nebogatoff's fleet. While the French report that he had reached the Sunda Straits is not believed on account of the known slowness of his vessels, it is considered within the bounds of possibility that Rojestvensky's lingering in Kamranh Bay may be due to the conviction that Nebogatoff will soon join him.

Notwithstanding the emphatic protests of some of the newspapers and

RAILROAD FREIGHT RATES. Stable and Uniform Charges the Great

Washington, April 20.—Lucius Tuttle, president of the Boston & Maine road, today told the interstate commerce commission that the only valuable property right of the railroad is the right to make its rates

erty right of the railroad is the right to make its rates.

He said there were practically three systems in New England, the Boston & Maine denoting the northern part of New England. Men in that region doing business must depend on this road, and yet he said in twelve years not a single complaint to the interstate commerce commission had been made. The same was true of the New York, Newhaven & Hartford and of the Boston & Albany. Stable and uniform rates were necessary rather than low rates.

He asserted that no five men could fix railroad rates for the country. Messrs. Gould, Morgan, Harriman and Vanderbilt could not either singly or together fix rates on the big lines any more than a blacksmith could repair a watch.

HEINZE WINS LAWSUIT.

After Years of Litigation Secures Title to Great Mine.

Helena, Mont., April 20.—The Supreme court of Montana today affirmed the judgment of the district court of Silver Bow county in the case of Miles Finlen against F. August Heinze, the Montana Ore Purchasing Co. and others, better known as the Minnie Haley case, involving title to one of the richest copper mines in Butte.

The decision favors Heinze. Finlen had leases and bonds on the property from John Devlin, Mrs. Devlin, Mrs. Riley and Mrs. Kelly in 1898, agreeing to pay \$100.000 for these interests. In November, 1898, Heinze says he had a verbal agreement with Finlen to take over the bonds and leases for \$54,000, and under the terms of that agreement began working the property. This Finlen disputed, and in February, 1898, the presents suit for possession was commenced by Finlen. The litigation that ensued was carried through the courts of the state. Finlen meanwhile had transferred his interest to the Amalgamated. The decision gives Heinze title to the mill of the state. The Amalgamated in the millions. The Amalgamated interests may appeal to the United States Supreme court.

WILL SAVE ONE DOLLAR A TON. Combine of Big Rossland Mines Is Accomplished.

Combine of Big Rossland Mines Is Accomplished.

"The War Eagle and the Centre Starare each making money," said James Cronin, general manager of the two properties, who is down from Rossland B. C., on a brief business visit, says the Spokane Spokesman-Review. He has been in charge of their affairs since the first of the year. Mr. Cronin says the mines are now making money on \$9 ore. That figure is of considerable interest, as the reports of Edmund B. Kirby, the integeneral manager, showed that the costs ran about \$12 a ton.

Mr. Cronin would not discuss the changes he has made in administering the affairs of the mines, except to say that he has abolished the contract system, which was a special feature of Mr. Kirby's administration. He said:

"We are getting a good class of miners, and Messrs. Stewart and Purcell, who are directly in charge of the Centre Star and the War Eagle, are two of the best in the country. The old trouble between the mining companies and the miners' union, which resulted in the recovery of about \$18,000 in judgment by the mine companies against the union for damages, caused by the strike of 1900, has been settled. The union paid us about \$1000, which fixed the principle of the thing, and we have released all further claims for damages. Relations between the union and the companies are quite friendly.

Saving One Dollar a Ton
"I have no doubt that the proposed

Saving One Dollar a Ton

smelting can be conducted with big tonnage.
"Suppose that the new combine, if it goes through, saves \$1 a ton on an output of 400,000 tons a year. The dividend secured by the saving is alone enor-

"The Centre Star is being developed by diamond drills below the 1350 foot level, and we are getting some good values in a large body of ore at a depth of 1550 feet.

"The War Eagle is being developed with crosscuts at the 1350 foot level. We have not reached the points where we expected to get any considerable quantity of ore. The Le Roi is looking finely from all reports. It has some good ore and large bodies of it."

for croup. We have frequently given it to our children, even in the hapy, and it has areverfabled to cure in a few mirantes." See, a boutle. The Grifflibs & Macpherson Co., Lid., Jeronio, Con. Griffilis, Menthol Liniment Mrs. J. Sims of Vancourer, says :- "If there ever was a never-failing remedy for a disease, it is

Germany's Jealousy
The meeting between the King and
President Loubet has filled Germany
with spleen to almost the bursting with spieen to almost the bursting point. Coming after the Kaiser's illadvised visit to Morocco, the meeting had more than mere passing significance. That the King and the chief magistrate of the French republic entertain deep respect for each other goes without saying, and the meeting so hastily arranged for had a meaning beyond an exchange of courtesies.

Canada for the British

Canada for the British

The commissioner of emigration for Canada has just issued his report for the spring. The prospects are considered excellent in the Northwest Territories. This month and the next one will see a large exodus to the new lands there. The various emigration societies are making every effort to assist reliable Britishers to reach the country. That in a large number will counteract the Yankee invasion.

Seven Years' Imprisonment

country. That in a large number will counteract the Yankee invasion.

Seven Years' Imprisonment

"I do not feel justified in passing upon you anything like a light sentence. I am afraid that I cannot do less than sentence you to seven years' penal servitude." So said Mr. Justice Jelf yesterday to Henry Corbett Jones, who for many years was the trusted clerk of the Holborn Board of Works and the Holborn borough council. The wretched man in the dock pleaded guilty to embezzling £10,070, the moneys of the taxpayers, but drew the line at another £7,000 which It was alleged he had misappropriated. Social ambition was his downfall. For six years he had systematically plundered the taxpayers to keep up his extravagance, and when detection became inevitable, he rose from a sick bed and voluntarily surrendered to the Bow street police. He was defended by Mr. Dickens, K. C., the son of the celebrated novelist.

Learned Policemen

Learned Policemen

Learned Policemen

The lot of Robert is said not to be a happy one. In consequence of the increase of the children of Israel in Greater Babylon a number of constables have had to acquire Yiddish, and Italian is indispensable in some districts favored by the children of the "sunny south." The other day Policeman Wrapson, to satisfy a limb of the law, had to blushingly confess that he knew some very naughty words in musical Italian. The Italian who used the words is now doing three months.

The Big Diamond

The "Cullenan diamond" is on view

The "Cullenan diamond" is on view in Holborn viaduct. It is 4½ inches in length, 2 inches thick and is valued at one million sterling. Of course, it in length, 2 inches thick and is valued at one million sterling. Of course, it is on view to the privileged only for obvious reasons. It weighs 1½ pounds. In its present state, except for show purposes, it is a white elephant, for who wants a 1½-pound ring, pin or brooch. A modeł of the previous record holder, "The Excelsior," is completely dwarfed by the monster. Popular opinion allots the States as the future home of "The Cullenan."

Imperial Detence

The war office vote has not been reduced by a million sterling, that proposal having been defeated by the partially satisfactory majority of 43. The motion for reduction was introduced primarily for the purpose of giving expression to the deep-rooted discontent that is everywhere manifest in regard to the army. It is unfortunate, but it is a fact that in regard to no other government department does so

Shrinking From the Prospects

sent to anchorages where they will t safe "when the stormy winds do blow others to the auctioneer's hammer. Bu others to the auctioneer's hammer. But there is not at the admiralty the perpetual overnauling that goes on at the war office, where the advent of each successive secretary of stage is followed by a volc.nic cruption designed for the purpose of obliterating every indication of the presence of every secretary of state for war that ever went before. Hence the difference in the public attitude towards the two branches of the nation's defences. They country does nation's defences. The country denot want

A One-man Scheme

A One-man Scheme
and no one-man scheme will be regarded as adequate and satisfactory. A
heaven born genius might rise to the
occasion, but the average individual is
neither heaven born nor has he a profound belief in the existence on earth neither heaven born nor has he a pro-found bellef in the existence on earth of such individuals. He resents the as-sumption wherever it shows itself, and the suspicion which has now become prevalent that Mr. Arnold Foster is ignoring those who ought to be his confidants and associates is doing acither himself nor his scheme any good. Nor does the country want a cheese-paring policy. It, wants ef-ficiency and it is willing to pay for it, but it resents extravagance, waste and indifference to the pockets of the tax-payers. It wants the assurance that it is possessed of an army capable of fulpayers. It wants the assurance that it is possessed of an army capable of fulfilling every possible imperial requirement as worked out, not by amateurs, but by the best military minds of the nation, and for the present it feels deeply that the actuality is very far Short of Requirements

The men are there and the money will ever be forthcoming; but these are not all, and, rightly or wrongly, the country feels deeply that there is one thing needful wanting.

Breach of Promise Case

Breach of Promise Case

Breach of Promise Case

The Hon. Rupert Guinness, son of Lord Iveagh, was the defendant in an action brought by Miss Isabel Ames Hales for an alleged breach of promise. The fair one alleged that the Hon. Rupert promised to marry her in 1891, and Mr. Justice Lawrence and a special Jury took the matter in hand yesterday. Miss Hales admitted that she could not produce a single letter te substantiate the alleged breach of promise. She confessed to being 29 and when shown a birth ecrificante, which clearly put. it has he was born in 1867, she said her "mother must have made a mistake." By direction of His Lordship the jury reduced a first control of the leart of the latest of the late

camps.

Hand Logger of Former Days

From Our Own Correspondent. Rock Bay, Valdez Island, April 19 .try in this part of the province quite as and four years ago. True hand logg!..; is on the decline. The day is fast going by when this strange mixture of lumberman and beachcomber may start out with axe, saw and jackscrew and make big pay while living on the fish he catches and the deer and birds he shoots.

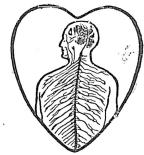

is noticed on the beach, but toda, ...ere is but one man at it where three years ago there were five.

With the native, however, it is different. With them time never counts, and more of them than ever are found putting in their little booms, for which, however, a much lower price per thousand is being paid than for "camp" logs, as there is now but few good trees left close to the water to swell the hand logger's boom.

Passing of Ox and Horse

Amongst the camps, too, time is making many changes. Oxen have some years since disappeared from the woods. But few of the horse teams that succeeded them are now to be found, and the hauling of the great logs of forest giants today is done by steam and cable. Large donkey engines by their whistle, smoke and jets of steam, tell of the camps away back in the woods, where Douglas firs are reeled in one, two and three firs are reeled in one, two and three nile or more, but where the distance ex-reeds that much the turn is passed over

MILBURN'S Heart and Nerve Pills.

Are a specific for all heart and nerve troubles. Here are some of the symptoms. Any one of them should be a warning for you to attend to it immediately. Don't delay. Serious breakdown of the system may follow, if you do: Nervousness, Sleeplessness, Dizziness, Papitation of the Heart, Shortness of Breath, Rush of Blood to the Head, Smothering and Sinking Spells, Faint and Weak Spells, Spasm or Pain through the Heart; Cold, Clammy Hands and Feet. There may be many minor symptoms of heart and nerve trouble, but these are the chief ones.

Milburn's Heart and Nerve Pills will dispel all these symptoms from the

to another donkey that drags the logs out to the salt chuck. Advent of Railroads

Lumber Camps

Trials and Tribulations Incident to Life in the Logging

out to the salt chuck.

Advent of Railroads

This second handling adds much, however, to the cost of operations, and so railroading takes its place on the big timber claims, and the camp is oft-times a division point with locomotive sheds, shops, etc., one terminal being down by the sea, the other up amidst the tall timber. So far railroading propositions are confined to the Hastings and Chemainus operations, but as the good timber is fast receding from the beach, the day is not far distant when the saw log hauling of the coast will be entirely a railroading operation. Rock Bay, Grant Bay and Sliamon have long resounded to the whistle of the locomotive and the roaring of the log cars. To these must now be added Salmon river, where during the past winter Foreman Jim Springer, of the Hastings mills, has built in a mile and a half of standard gauge track to reach a fine block of fir which is expected to cut up to 25,000,000 feet.

Difficulties of Communication

Amongst the difficulties of logging here that of communication ranks well to the front. Twice a week the Union Steamship Co.'s steamer Cassiar ploughs here and supplies of all kinds, and the mails, co—antonugh the service is an unsubsidized one, the letters being stamped in long purple letters, "By Union SS. Co. Unpaid Mail Service." But twice a week is very seldom, and oft-times the visits seem a terrible while between. A fine

Carrier Pigeons Introduced
But this week sees the first attempt
to overcome the difficulty. The telegraph
reaches up to Comox, but a sixty-mile
belt still intervenes before the heart of
the logging region is reached on the
mainland side the erection of a pole line
is at present quite out of the question. A
cable would be too costly. And so, cut
off from the more usual methods, unusual ones have to be turned to. The Patrears and rages past the mountain isl-ands the birds, letter tied to leg, will make unerring homeward flight and bring the logging regions to within but a few hours' reach of home.

make unerring homeward flight and bring the logging regions to within but a few hours' reach of home.

At the various trading points along the coast, business generally is reported good. Mr. James Pope, for years well known at the Euchatah Rapids, is now building a fine new store at Port Harvey, where for the past two years he has been trading. At Campbell river, where hast year the Thulin Bros. opened up their new hotel, the Willows, this enterprising Lund firm have now completed a store with Mr. H. Higstrom in charge. Mr. Higstrom is well known, having for a couple of years carried on the Thulin Bros. branch store at Sliamon.

This latter point has now relapsed into all the quietude of a simple Indian village. The big Hastings mill camp is now away, the huge forest fires of last year having swept away the timber of a stretch of some forty miles of coast. Thulin Bros. 'store is closed, but the building now somewhat extended is heing devoted to an excellent purpose by the Siwashes who bought it. Chief Tom of Sliamon wanted a school. The church for several years had been educating the Siamon youngsters at Vancouver Mission or St. Mary's up the Fraser, or for a few months back at Sechelt. But the sturyd Siwash chieftain wanted a school at home, and so his band bought the store building, brought Aeneas down from Pemberton Meadows to teach and the Siwashes are credited with running their own school on their own expense. The village pays Aenas \$45 a month.

London, April S.—"We view with anxiety the coming of the motor omnibus, and the consequent curtailment of the supply of good, serviceable horses for military purposes," said the Earl of Minto this week, quoting from a letter he had received from the war office ou the subject of the failing supply of horses for military and civil use.

Lord Minto presided at a meeting convened at Bridgewater House, the Earl of Ellesmere's residence, to consider this question.

Constipation

Fruit is nature's laxative. Plenty of fruit will prevent Constipation, but won't cure it. Why? Because the laxative principles of fruit are held in peculiar combination and are very mild.

After years of labor, an Ottawa physician accidently discovered the secret process by which

are made. He used fruit juices, but by combining them in a peculiar way, their action on the liver, kidneys, stomach and skin is increased many times.

"FRUIT-A-TIVES" TABLETS contain all the medical properties of fruit—are a mild and gentle laxative-and the only permanent cure for Constipation, Torpid Liver, Sick Headaches, Bad Stomach and Kidney Troubles. All druggists have them. 50 cents a box.

FRUITATIVES, Limited, OTTAWA.

scriptive of the beauties and attractions of Victoria yet arranged for by the Tourist Association, will be issued from the Colonist presses on Tuesday next. This is a tolder entitled "Impressions," containing a large series of photo-gravures depicting typical scenes and two pages of letterpress explanatory of the intent and purpose of the little booklet, with appropriate sentences calling attention to the varied charming attractions of this city for those who may be seeking business opportunities, a delightful home or apoint for a pleasurable holiday.

To Herbert Cuthbert, the secretary of the Tourist Association, must be given primary credit for the conception which has resulted in the production of a piece of literature which is easily the finest thing of the kind ever produced in the Canadian West, and quite the equal of any similar effort on the American continent. In arranging the wind and the printed page is in itself a treasure.

Printed on the finest book paper, the whole is enclosed in a cover of especial merit. The paper for this was imported especially for the association and executed by Artist Ewers, is voted a masterplece. It is done in three colors—a bunch of holly in green with red burtle, or the follow in the early for distribution on Tuesday morning. The edition on Tuesday morning. The edition of a piece of literature which is easily the finest thing of the kind ever produced in the production of a piece of literature which is easily the finest thing of the kind ever produced in the production of the finest book paper, the whole is enclosed in a cover of especial merit. The paper for this was minor the purpose; and the frontal design, conceived by the ariting committee of the association and executed by Artist Ewers, is voted a masterplece. It is done in three colors—a bunch of holly in green with red burtle, and the frontal design, conceived by the printing committee of the association and executed by Artist Ewers, is voted at masterplece. It is done in the red to striking a ball which has bur

Vincent.

The highest skill of the sketch artist, the engraver, the printer and the pressman was summoned in the effort to make the production so notably successful, and the result is conspicuously gratifying to all concerned. The grouping and arranging of the magnificent series of photo-engravings was the special care of Mr. Cuthbert, and the latter relied on Artist Ewers, of the B. C. Photo-engraving Company for the sketch designs and embellishments, which make appropriate settings for the pictures proper. On a majority of the pages are straight halftones on flat tint blocks, and six of the leaves contain impressions of what are termed due engravings. These may be termed eppoductions of what appear to be oil paintings in miniature, so artistically are the tints blended and the charming light and shade effects introduced to bring out all the beauties which faced the camera at the time the pietures were taken. One's first exclamations on examining the new folders are hose of mingled delight and surprise—delight at extraordinarily beautiful selection of rich scenic effects; surprise at the marvelous ingenuity and cleverness of the engraver and printer in conveying to the blank page impressions so exact to nature.

Delightful Isle of the West ncent. The highest skill of the sketch artist,

Delightful Isle of the West

Delightful Isle of the West
The series of views presented comprise pictures varied in their portrayal of conditions in this delightful Isle of the West—scenes appealing to the lover of grand scenery, the sportsman, the tourist who revels in all that adds charm to life, and to him who has yet an eye to the main chance—the opportunity for engaging in commercial pursuits. As has been before indicated, each of these pictures are a constant delight to the eye; and a reference to one particular scene will indicate the

Judge Has Made Final Awards

McConnell's Fanilla Captures Prize for Best English Setter Exhibited,

Kennel Club Show a Great Success-Full List of the Winners.

The Kennel Club show was in full swing yesterday, a large crowd being present nearly all day. Judge Parker coninued his work all day, not getting finish ed till late. From all sides there comes nothing but words of praise of the show. Mr. Riplinger of Seattle says that it is without doubt the finest show held north value, there being some very valuable dogs

number of dogs exhibited, but also in value, there being some very valuable dogs on exhibition: among them are Duke Royal, a black cocker spaniel, owned by R. G. Gamwell of Bellingham, which has captured the best prize here, and has not been beaten on the Pacific Const. in the English setters McConnell's Familia was awarded the prize for the best setter in the show, over Mallywd Bob, Minor's Roy's Last Montez, and Brecken O'Tech. Among the collies is Glen Tana Marquis, which is a very fine animal, and has won 38 first prizes. Among them are 11 first in Scotland, 4 first at Glasgow, 3 first at Portland, 3 first at San Jose, 1 first and 1 second at Milwaukee, 2 first at Bellingham, 3 first and prize for best dog in the show at Spokane.

This is a very fine record and one that should make any man feel proud of his dog. There was a very keen competition for the best dog of any kind in the show, it took fully three quarters of an hour for the judge to come to his decision, giving the ribbon to Wandee Violet, a fox terrier, owned by C. K. Harley of San Francisco; J. Wunisohn's Irish setter Jeannot took second, and T. P. McConnell's English setter Familia third. During the judging of the collies, R. G. Gamwell, owner of Jan Ridd, and J. McIntosh, owner of Prince, protested the decision of the judge in awarding the first place in the open and limit dogs to Winnitka Ballparnet Eclipse Laird, owned by J. D. Kjoeber, M. D., of Green River Hot Springs, After all the dogs had been judged the bench committee had them brought out, when the decision of the judge was upheld. The show will be open all day today, and as the award cards are now all placed, the visitors will be able to tell the Winners at a glance and the class entered in. No one should fail to visit the show today, as it is a very fine exhibit and is a chance that should not be lost. Following is the list of awards: GORDON SETTERS.

TAXING RAILWAYS

A few days ago attention was called to the reports submitted by the Railway Taxation Commission to the Ontario Legislature in which it was proposed to tax railway and transportation companies three per cent. on the gross returns A very strong objection has been raised to this, not on the ground that the railway should escape taxation, but on the principle involved. One newspaper asks why it should be considered necessary to tax the railways, beyond the municipal taxation upon real estate and buildings, taxation, which is not really taxation, seeing that the municipali-ties supply, or are supposed to, value for the amount received. It is stated that this proposal to tax the railways springs from the popular misconception that the shareholders pay the taxation. As a matter of fact, it is not. It is paid by the people using the railways. It is, says the Montreal Gazette, taxation which stands between them and and any natural reduction in rates. The gravest objection in our mind, however, to the proposed form of taxation is that it is levied upon business merely passing through the Province which in a way affects the Province of Ontario, and for which it is in no way responsible. For instance, why should wheat going from the Northwest, which happens to pass through Ontario, en route to Montreal and Great Britain, pay tribute to the On-tario treasury or why should freight, passing from one province to another be liable to such imposts? This is clearly an interference with trade and commerce and it is a serious question whether a province has the right to impose such taxation. To work out the problem to a logical conclusion we may assume that all the provinces of the Dominion might adopt a similar principle. When the two new provinces are formed, there will be nine provinces in all. Let us consider the situation from that point of view: A carload of freight originates in Prince Edward Island, goes to Hali-fax, through New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, and is finally landed in Victoria, British Columbia. If each province were to impose three per cent. on the gross value of the carload in question as tanation, by the time it had reached Victoria it would have paid to the various treasuries twenty-seven per cent. The proposition has only to be placed in that light to show how wrong in principle it Whatever may be the defects of the present system there seems to be no practical way of taxing a railway other than upon its property within the province, whether the taxation is imposed by the province or the municipalities, through which the railway passes. It would not be fair all round to tax a railway upon its income, because in that case the railway company would only be taxable at its head office and the head offices of the two main lines of Canada are in Mon-Montreal, or the Province of Quebec, would reap the entire benefit of the taxable income of these two com-panies for the whole of Canada. The only practical method, therefore, is, as stated, to tax the property of the company where it is found, such as the buildings, road bed, rolling stock, etc., etc. Sir Charles Rivers-Wilson thinks it would be most unfair for Ontario to
tax the Grand Trunk Railway because much for Ontario. That is decidedly an unbusinesslike view and should have no

be given effect without reference to any

consideration. Having once arrived at

an equitable basis of taxation, it should

LIVING UP TO THE PLATFORM. When the present Government of Onthe support of a large number of Liberals as well as Conservatives. Premier Whitney took office opposed to many of the abuses which arose during the Rose administration, including the evils of the spoils system. Throughout Ontario, among Conservative circles, there is a disposition to resent the attitude of the new Government. It is held that previous Liberal administrations having filled the offices with party heelers, many of whom continued to be partizans in office, and having administered the affairs of the country on the spoils system, the government should make a clean sweep of the offices and recognize the principle of party patronage to the full. That the Government is standing firm to its platform is very evident from a circular which has been issued by Hon. W. J. Hanna, Provincial Secretary, to license inspectors and the boards of hcense commissioners throughout Ontario. They are reminded that in no case must they allow political considerations to influence their decisions. They are not permitted to be influenced by committees or partizans assuming to direct the board as to what licenses should be issued.

Any license obtained in this way will be discontinued. It is stated that "the Government is sincerely anxious that the license laws shall be strictly administered and on a non-partizan basis" and officials are expected to administer the law with that end in view. They are instructed that where the number of applicants exceeds the number of licenses to be granted, those applicants who are

personally the most desirable, and whose

hotels are the best appointed and the most suitable for the public accommoda tion are always to be preferred. Inspectors are enjoined to make fair and impartial reports in every instance.

The circular proceeds: "There are many places called hotels which are drinking places, the bar being made the first consideration, and the ac commodation for man and beast but see ondary. Make the licenses of such places live up to the requirements or refuse the licenses. Make them keep hotel." Rigid enforcement of the law is to be faith-

fully carried out in every district.

So far as the temperance plank of th Whitney platform is concerned, the Gov ernment has made a good start. The policy is sound in every particular and will have much better effect throughou the country than a prohibition or loca option law imperfectly carried out.

THE ETHICS OF ADVERTISING.

The Anaconda Standard has an editorial on advertising in which it deals gen CHEMAINUS ... H. Harnell "one of the distinguishing features of DUNCANS R. Ventress present day life, as compared with life and industry a generation ago, is the development of legitimate newspaper advertising and the change adopted to wards it by professional men." Accord ing to prevailing ethics it is not con sidered professional for doctors and law yers to advertise. The medical profes sion is particularly insistent on that score, upon what real grounds of principle we cannot say. Why it should be considered unprofessional for a doctor to insert his card in the paper or to adver tise himself as a specialist in some par ticular disease, it is difficult to compre hend. A man's profession is his calling in life and upon it he depends for his living. No professional man will say he entered his profession purely for the pur pose of benefitting mankind or advance ing science. Either one of these or both may have been incidentally strong in ducements, but, in the majority of cases. at least, a profession means a livelihood and while the medical profession, as a whole, professes a horror of advertising it is a matter of common knowledge that very few physicians but are willing to receive mention in the press, if, as the Standard suggests, such mention creates the impression that they are skilled practioners whose services are in active demand. When a physician puts up his shingle should he be prohibited from letting the world know it by a standing announcement in the newspaper?

Continuing to discuss this subject, our centemporary points out that until within recent years it was an unheard of thing for a minister to advertise the services of his church or the subject of his sermons. Today it is the most common thing in the world to include advertising bills among their current expenses. Pastors and managers of churches have found by experience that it pays to advertise, pays in both a spiritual and material sense. Increased publicity brings larger congregations which tend to ininfluence. Needless to say, it is not necessary for a minister to parade him self or to adopt the ordinary methods of commercial advertising, but he can advertise judiciously, that is to say, he can make announcement of what he wishes the people to know through the column of the newspaper without loss of dignity

and with benefit to the church. Even politicians understand and appreciate the value of newspaper space. The Anaconda Standard says that Governor Douglas of Massachusetts is a case in point.

THE SUPPLY OF IRON ORE.

A. C. Lane, president of the Schoolnasters' Club and the Michigan Academy of Science, gave an address at Anu Arbor the other day on "National Resources," in which he predicted that, at the present rate of consumption, all the in eighty years, and that in ten years

there will be no more white pine.

With respect to the latter he is undoubtedly near the truth, as white pine in America, especially, is rapidly being exhausted. However, so far as iron is certainty as to the world's probable sup ply, ad the time during which it will be exhausted. In British Columbia alone there are vast deposits of this mineral, while in the Pacific Coast States, in Mexico, Russia, China and in Labrador there are immense fields not yet developed. In fact, the world is full of iron. It is one of the most useful and necessary of mineral products, and Nature, with its usual compensations, has ren-dered the supply commensurate with the probable demands of the human race for

One correspondent in the Times com plains of too much water on the streets and another in the same issue complains of the insufficiency of water on windy days to keep the dust down. There is robably truth in both contentions. There s too much water sprinkled in one place to go as far as it should.

The charge that the support of the Western members of Parliament has been obtained to the Autonomy Bill as he result of a guarantee that a duty should not be placed on lumber, unfortunately for the contention that it is "extremely silly" and the "work" of Conservatives, is made by the Farmers' Possibly the little arrangement is intended to punish British Columbia for not having separate schools. too, if the lumbermen of this Province had opened negotiations with Mon-signor Sbarretti in time, they might have obtained the protection they seek on condition of a change in our school Col. Matheson, Provincial Treasurer

of Ontario, has written off an asset of nearly \$5,000,000, represented by the Temiskaming railway. He has been severely criticized by the opposition members of Ontario for this feat of finance. It is asked if the railway in question is not a Provincial asset, what is it, and the Ottawa Free Press, in an effort at facctiousness, states that if it is not an asset it must be something else. "Is it fish, fowl, or beast of the field?" it queries. Col. Matheson, in dealing with the matter as he has, has simply followed the example of the Dominion Government, which does not include the Intercolonial as an asset. It does not pay and as it returns nothing to the treasury above its cost, it can only be regarded as an asset in a negative way. Public buildings, bridges, parks, roads, are all assets in a sense. They are necessities which have cost money to produce and are of benefit to the community which they serve, but they are not regarded in a financial statement as assets because they are not realizable. We question, however, if a railway is an exact parallel. It could be sold for something, if not for what it cost—for a half, or third, or some other sum. In any event the Temiskaming railway cannot be regarded as an asset valued at \$5,000,000 until it is able to pay interest on an investcrease the financial support of the church and to bring a larger number within its is probably wise in eliminating it for the

SITEMEN AS TRESPASSERS.

SIT—Can owners of land through which streams and rivers belonging to the Dominion government pass prevent fishing within the boundaries of their property if not, would anglers be obliged to traverse the waters or beds of such streams or rivers in order to avoid trespassing on the property through which they pass; or could they travel along and fish from their banks? FISHERMEN AS TRESPASSERS.

Shawnigan Lake, April 18, 1905.

Shawnigan Lake, April 18, 1905.

[The old common law rights still hold good, that the owner of land abutting a non-navigable stream owns the land to the centre of the stream. There is no private property in the fish. They are like the birds of the air; but if the latter come and rest in the fields of a farmer a stranger cannot go into the field to reach them without committing trespass. So in regard to fish in streams. A stranger may not fish from the banks or wade in the stream without committing trespass. We may say, for the information of "Subscriber," that non-navigable streams when the within the jurisdiction or control of the Dominion government.—Ed.]

A PUBLIC NUISANCE.

A PUBLIC NUISANCE.

Sir-Having had occasion to be taking a ride on my bleycle in Shawdigan district, I was shocked to find the fifthy condition of the Mill Bay and Cobble Hill road opposite the Catholic church. This portion of the public theroughfare would compare favorably to a scavenger dumping ground. If I am not mistaken, this particular case has been reported previously by the proper authorities. This condition of affairs reflects not only on the residents in the neighborhood, but also to the discredit of the rest of the farmers of the vicinity. Trusting this will receive immediate attention, as it is a public nuisance and a disgrace to any civilized community.

OBSERVER.

A nation stands in solemn mien,
Gazing upon a bulletin;
Why doth the multitude intently view
The page inscribed in carmine hue?
Oh, stranger, pause and join the throng,
Our President is going strong;
A bluff he climbed with hands and knees,
And slew a hear with greatest case.
A "bob cat" viewed the deadly strife—
His temerity cost him the breath of life,
—"The Devel" in The Victoria Times.

GETTING TOO GAY.

Montreal Star.

If British Columbia gets too gay with its anti-Jap legislation, Admiral Togo may drop around some bright April morning and start tossing 13-inch projectiles in amongst the breakfast dishes.

WHO MR. OLIVER REPRESENTS.

St. John Sun. It will be seen by the elements of Mr. Oliver's constituency that the new minister is a representative man. There are no voters whom he can better afford to disregard than those who speak English and are of British origin. If he is so fortunate as to please the natives of Russia and middle Europe, he will be safe.

ALWAYS SUNDAY SOMEWHERE.

Success.

Few people know that other days of the week than the first are being observed as Sunday by some nation or other. The Greeks observe Monday; the Persians, Tuesday; the Assyrians, Wednesday; the Egyptians, Thursday; the Turks, Friday; the Jews, Saturday; and the Christians, Sunday. Thus a perpetual Sabbath is being celebrated on earth.

Sunday. Thus a perpetual Sabbath is being celebrated on earth.

BETTER FRUIT SERVICE.

Winnipeg Commercial.

The British Columbia fruit trade should receive fresh inpetus this summer, owing to improved railway service. F. W. Peters, assistant freight traffle manager for the C. P. R., states that this season especial attention will be paid to the handling of British Columbia fruit consigned to points teast of the mountains. The refrigerator car service will be innugurated, and if the volume of business will guarantee such a step, the freight rates will be considerably reduced.

After an extended trip of investigation, fig. Peters says that during the last couple of years there has been such a pronounced increase in fruit and vegetable raising in British Columbia that the question of a market for these products has become a most important one; and, while on the ground, he took advantage of the opportunity to go into the matter at considerable length. He found that a large number of the opportunity to go into the matter at considerable length. He found that a large number of the opportunity to go into the matter at considerable length. He found that a large number of the opportunity to go into the matter at considerable length. He reads a step, the freight service so that make twith the least possible delay. Provision has been made at all intermediate points for proper I claim of refrigerator cars; and an increased number of these will be rund, but the pull the couples for proper length of refrigerator cars; and an increased number of these will be made at all intermediate points for the work as strong demand that and fresh vegetables alone, silluration of the possible delay. Provision has been made at all intermediate points for the provision of the possible delay of the provision of the possible delay of the provision of the possible delay of the provision of th

LOCAL NEWS.

Farmers From Australia.—D. H. Ross, commercial agent at Melbourne, has submitted a report to the Ottawa government, in which he says that a large number of Victoria farmers are selling out and going to British Columbia and Alberta.

Deserters Break Jail.—Sometime dur-

Deserters Break Jan.—Sometime during Wednesday night at Nanaimo John
Newman and Ernest Witworth, deserting bluejackets of H. M. S. Egerla, who
were locked up a week waiting for the
warship, due at the Coal City today,
broke the lock on the door of the city
lock-up and escaped.

First Strawberries.—For the first time this season strawberries are now on sale in Victoria—the offerings, of course, being those grown in California. They are being held at a fancy price, the retail price being 35 cents a pound. Being the first of the new fruit, however, they are very welcome and find ready purchasers.

Songhees Reserve.-Notwithstandin

the optimistic views held by certain members of the Board of Trade, there

members of the Board of Trade, there does not appear to be any prospect of an immediate disposal of the Songhees reserve question. The council will appoint a committee to interview the government again, which will leave the matter in pretty much the same position as it was before.

unique character, being styled a ck social." A splendid programm nusic was rendered during the éven

ing and refreshments were also pro-vided. The attendance was exception-ally large and a good contribution made to the funds of the league.

Cement Sidewalks.-The engineering

Cement Sidewalks.—The engineering department of the corporation is making preparation to commence work early the coming week on the laying of the various sections of cement sidewalks recently decided upon. The section first to be treated under the new programme will be that on Yates street from Douglas to Blanchard, past the Carnegie building. The cement used this year will be that manufactured at Todd Creek, under the management of R. P. Butchart.

Full Court Adjourns .- The Full court,

Full Court Adjourns.—The Full court, which has been sitting for several weeks hearing argument in the will (appeat) case of Hopper vs. Dunsmuir, idjourned yesterday until the 28th inst. At yesterday's session Sir Hibbert Tupper, who appears for the intervener, concluded his address in reply to the argument of opposing counsel, and the

concluded in address in reply to the argument of opposing counsel, and the case may now be said to be placed entirely before their lordships. Just be

tirely before their lordships. Just be-fore announcing adjournment, the chief justice remarked that he was sure the court, in attempting to arrive at a de-cision on the matter, could not com-plain that counsel on either side had neglected any material points.

neglected any material points.

Matrimonial.—At the home of Mr. Alfred Huxtable, Fernwood road, Wednesday evening, Rev. J. McCoy united in marriage Mr. Wallace McB. Bowes, formerly of Victoria, and Miss Helen C. Michie, daughter of Mr. and Mrs. John Michie, of Ladysmith. The groom was supported by Mr. F. W. Bowes, and the bride was attended by her sister, Miss I. Michie. Only the immediate relatives and friends of the contracting couple were present at the ceremony. After a short honeymoon tour Mr. and Mrs. Bowes will take up their residence in Ladysmith, where Mr. Bowes has been local manager of the Canadian Pacific Railway Company's telegraphs for some time.

pany's telegraphs for some time

Against Muddy Street.—A number of

Against Muddy Street.—A number of the business men on Fort and Government streets yesterday afternoon attached their signatures to a petition to the City Council, which will be presented at Monday evening's meeting, praying that action may be immediately taken to prevent the practice which results in making the streets mentioned excessively and unnecessarily muddy. As a remedy for their grievance it is suggested to the council that the carts which are engaged in

grievance it is suggested to the council that the carts which are engaged in hauling material from the Spring Ridge pits to the hotel site should be ordered not to use Fort and Government streets as a route, but go along Douglas and Humboldt. With the carts using Fort and Government streets, as at present, a considerable quantity of material is constantly dropping off; then the watering carts come along and in a few minutes a juley, sticky mud is formed, which ellings to the footgear of pedestrians, to be tracked into the business premises which any of them may enter.

The healthy appearance of "Portland Dick" is due to the care of its owner, Mr. Creighton, who feeds him on Smith's dog biscuits.

Use telephone to Lallysmith.

Honored by Employees.—Upon the occasion of his retirement from active participation in the managerial affairs of the Paterson Shoe Company, of which he has been president, Mr. Paterson was surprised by his late business associates last evening, and made the recipient of a suitable testimonial and token of friendship and regard.

Rain Is Needed.—Farmers and gard-eners generally of Victoria and sur-rounding districts are awaiting a good shower of rain with keen anxiety. The remarkably dry winter and spring has resulted in leaving the ground almost free of moisture, and the putting in of crops is seriously retarded in conse-quence.

Hardress Clarke Estate.—The Hardress Clarke estate has been split up to suit all parties. Separate bids have been asked for in order that the purchaser of the stock shall not be obliged to take the horses, wagon, cash register, scales fixtures, etc., unless wanted. Tenders should be sent to the assignee at once, and only those delivered before noon tomorrow will be dealt with.

Off to Whitehorse.—Among the passengers on the steamer Princess May, which sailed for the North yesterday, which sailed for the North yesterday evening, was Captain John Irving, who goes to Whitehorse to arrange with his partner, William Clark, who is now at that point, in regard to operations on the Arctic Chief copper mine. This season's operations on the property should prove very important, as it has reached the producing stage and is in good ore.

Port Simpson the Place.-Despite the Port Simpson the Place.—Despite the hysterical prophesies of a few newspapers and speculators, it is generally believed by those "on the inside" here and in Vancouver that Port Simpson, with its capacious and safe harbor and its splendid site for a great city, has been already selected by the transcontinental road as its Paclfic terminal, and that confirmation of this view will be announced ere long. It does not matter particularly in the view of these observers whether Kitimaat or Kaien observers whether Kitimaat or Kaien Island is the Port Moody of the new northern road, so long as their faith is justified that Port Simpson is to be the new Vancouver.

Dallas Road Foreshore.—The stone buttress wall which the city put in position at a point on the Dallas road foreshore is showing signs of weakening, and to sustain it in position it has been found necessary to drive piling for a considerable distance along the face of the wali. Competent judges who have inspected the work say the difficulty can only be remedied by excavating along the entire face of the wall and putting down a small subwall of concrete. The city has already expended the sum of \$2,000 on this piece of work and a further appropriation would appear to be necessary if the wall is to stand.

A Disgraceful Walk.—A plank side-walk which is in a shameful condition of disrepair is that piece which runs on the north side of Michigan street from Birdcage Walk to Menzies street. It is not only a source of great discomfort to pedestrians who are compelled to make use of it, but it is a constant menace to their limbs. Not a single plank in the entire stretch remains fast to the girders, having long since become detached from the nails; and dangerous holes exist, large enough in some places to engulf a child. Residents along the thoroughfare threaten to arise in their wrath some night and throw the entire wobbly structure into the roadway.

Dogs are kept in perfect condition when fed on Smith's dog biscuit, witness for instance "Prince Chimay," the Great Dane, owned by Mrs. Bradley-Dyne.

CAMPBELL'S

Meeting Postponed.—This being Good Priday, the regular weekly meeting of he Woodmen of the World will not e held this evening, having been post-oned until next Friday evening.

Druggists Will Keep Holiday.-Druggists Will Keep Holiday,—The weary and much overworked druggists of Victoria will conscientiously observe Good Friday, Sunday hours ruling. In other words, the drug stores will be closed from noon until 6 p. m.

Will Keep Holiday—Today being both a statutory and a religious holiday, and as such almost universally observed, there will be no issue of the Colonist tomorrow morning. On Sunday a 16-page issue will be presented to Colonist patrons, containing all the popular standard features and a number of specialties of interest.

Quadra Street Cemetery—The statement that most of the relatives of those whose remains are interred at the Quadra stree cemetery have passed away or left the city is erroneous. A considerable number are still residing in this city and the opinion prevails that their wishes should be consulted in any proposal for the alteration of conditions at the old cemetery.

School Board Vacancy—Very little interest is being taken in the bye-election to be held on Friday next to fill the vacancy on the school board, created by the resigration of Dr. Bolton. Three caudidates are in the field—P. J. Riddell, Wm. McKay and H. H. Jones—but there is no particular issue calculated to fix public attention in the event, and the vote is likely to be a very small one. Nominations will be made en Tuesday.

Socialist Lecture.—Owing to illness Mr. Vincent Harper will be unable to speak for the Socialists on Sunday evening. A remarkably interesting address, given before the Newark Alumni Association by Mr. Weeks, the vice-president of the New York Life Insurance Company, will be read. This address, and the sentiments contained therein, has aroused astonishment throughout the whole of the United States, and it will be thoroughly discussed by the meeting. Mr. Harper will speak later on.

A Yukon Kick.—A good deal of dis-satisfaction, according to the Yukon World, has been evinced by the em-ployees of the federal government in that far distant region over the fact that their salaries have been reduced to a point where it is barely possible to exist. The trouble commenced when, on July 1, 1904, the salaries of em-ployees in certain departments in the Yukon Territory were reduced in sums ranging from \$600 to \$1,200 a year. In this way not a few of the employees were left with salaries of but \$175 a his way not a few of the employee were left with salaries of but \$175 nonth. The dismissals did not reflec

In the police court yesterday the

raveling of the circumstances attendant to the assault of Tom Wong Lee of Herald street by one Chin Ling, both erstwhile of Canton, was commenced. Mary, wife of the assaulted Chinee, gave evidence that Chin came to their home and battered, also kicked, the door. Tom let him in, but was slow in opening the door. The tardiness annoyed Chin, who placed his bunched fist on Tom's nose, at the same time cursing her husband both in English and Chinese. The case was remanded until Wednesday.

The 23 gamblers who were rounded up in the raid of Saturday last have been given bail in the sum of \$100 for each man. Several have paid a fine. \$30. The others still claim to be not guilty, and have been remanded until Tuesday. The Chinese have been photographed before being allowed out on bail. This is done because in a former case some of the accused were impersonated by others at the trial and alibis alleged.

Chin Hong, who has been committed for trial on the charge of cutting and wounding, and is now held to answer a charge of perjury in connection with that case, has been given bail fixed at \$2500 in two sureties of \$1250 each. His case has been remanded until Tuesday.

The Skene Lowe studio will be open

The Skene Lowe studio will be open Good Friday.

Cake Was Spoiled—How often a cake is spoiled because the ingredients are not properly measured. The Silver Measuring Glass measures cupsful, liquid pounds, ounces, etc., pints, quarts, etc., also pound of flour, etc. It is made of heavy glass and is easy to clean. Call and see them at R. A. Brown & Co.'s, So Douglas street.

Easter Flowers—Thousands of tulips, 20c dozen; hundreds of daffodils, 20c; hyacinths, magnificent spikes, 50c dozen, at Flowers gardens or at our store in the Windsor Grocery. Try Dean & Hiscocks' Marvelons Rheumatic Liniment.

Manager Howlett and the members of Manager Howlett and the members of the team are taking advantage of the fine spring weather, having long hard drills every day. The last of the players to report, Downing, Philbrick and Hutchison, arrived here by yesterday's Sound steamer. Daly, the new recruit from Los Angeles, arrived on Wednesday and had his first turn out yesterday. He is an outfielder and a very fast one at that. It is almost a sure thing that he will be as big a favorite as Chase was a couple of seasons ago. He is a small fair-harred chap and covers no end of ground in the outfield.

Ford, the second baseman, is also very Ford, the second baseman, is also very

Ford, the second baseman, is also very fast, and will make some of the old-timers open their eyes with his speed at second. Both these players are also splendid throwers.

Williams in left is not going very fast as yet, having hardly got rid of the soreness of early practice. Burnes, the local player, is also still going slow.

Of the catchers, McManus is getting around and throwing in almost midseason form and will not have much trouble in holding his own in the company he is in.

Steele appears to be inclined to take sings easy for the present, no doubt migs to more or less soreness caused by and work so early in the season. He is t big husky young fellow, but no idea can be formed as to his ability as a

reason why he should not make good in any company.

Manager Howlett will take an occasional turn in the box himself, having had ample experience as a pitcher in the big leagues. He will no doubt alternate at third and in the box with Philbrick, who besides being a good pitcher is also a fine infielder.

Downing the short stop, has the reputation of peing a splendid player in that position and is a good hitter as well.

Hutchison is an old hand, having had experience in several league teams on the coast and in the cast. The team is now complete and will indulge in hard practices each day until the opening of the season.

On Monday next a practice game will

On Monday next a practice game will be played between the Fernwoods, who will be strengthened by the addition of two of the league team's pitchers. Monday being a half holiday, the fans will have an elegant opportunity of sizing up the new men. The game will be called about 3 o'clock. The line-up of the teams will be published later on.

Bellingham Team Complete

Bellingham Team Complete.

The Bellingham team is now complete.

Dugdale signed the team and will turn it over to his old fielder, Jack Drennan, with his best wishes and will then go back to his ranch and take his baseball through the newspapers for the rest of the season. The Bellingham team is composed of the following players: Spener and Kelsey, catchers; Califf, Druhot and Hoon, pitchers; Cippie, first base; Anderson, second base; Fay, short stop, Mahan, third base; Downey, substitute; Drennan, Kennedy and Rochon, out-fielders.

fielders.

A general practice of the Fernwoods has been called for today in Goodacre's field. The practice will commence at 9 a. m. and all members, seniors or intermediates, are requested to be on hand as arrangements are being made to meet the Victoria professional nine.

The Y. M. C. A. teams, both junior and intermediate, are requested to meet at Beacon Hill on the old cricket grounds this morning. Practice will commence at 9:30 and all are expected to be on hand.

on hand.

All of the professional ball team that have been signed by Manager Howlett have reported, Downing, Hutcheson and Philrick arriving by the Sound boat Philrick arriving by the Sound boat yesterday. Arrangements have been made for a game with the Fernwoods, to take place on Monday. Blackburn and Holness will do the pitching for the Fernwoods, and Galaski and Philrick for the professionals. Manager Howlett leaves for Vancouver this evening to attend the meeting of the league to draw up the schedule for the season.

LACROSSE.

Aiways Ready: Just Add Hot Water.

A chasing dish, alcohol iamp, the gas jct, or the kitchen stove will quickly supply boiling water. 1/4 teaspoonful of Armour's Extract of Beef (it requires a teaspoonful of some brands) to a cup of hot water makes the most delicious beef tea or bouillon you ever tasted. It warms and strengthens-good for tired and nervous people. For those sudden hungers before bedtime, try a few crackers and a cup of beef tea made with

Armour's Extract of Beef

ARMOUR LIMITED, Sole Packers and Shippers for Canada, TORGNTO.

catcher at present.
Galaski, since last seen here, has grown considerably and now tips the scale in the neighborhood of 195 lbs. He has speed in plenty and is practically ready for the season to open. Holmes and Blackburn are still going along easy, neither having had much practice this spring.

Blackburn will make a first class pitcher in time and should have a splendid future before him. Good left-handed pitchers with good control are searce, and as he is the possessor of a good left arm and splendid courtor, there is no reason why he should not make good in any company.

Manager Howlett will take an occasional turn in the box himself, having had ample experience as a pitcher in the big leagues. He will no doubt alternate this leagues. He will no doubt alternate that third and in the box with Philbrick, who besides being a good pitcher is also a fine infielder.

Ottawa Capitals Coming

An Ottawa despatch of April 14 is as follows: The Capital Lacrosse Club, if negotiations which are already well under way are carried to a successful conclusion, and there is every indication that they will be, will visit British Columbia this autumn and play in all the principal cities of the Coast. The trip has been in contemplation by the executive since last season, and communication with the Western clubs has, as stated already, been opened up. Capitals have never been seen in the West, and as the team would undoubtedly prove to be a great drawing card out there, the trip should be a money maker, as well as one of pleasure for the team. Arrangements for the proposed trip will be made by Mr. R. T. Shillington, of the Ottawa Football and Hockey clubs, who will visit the Coast in the course of a few weeks on a combined business and pleasure tour, and has been empowered by the Capital executive to close all arrangements with the British Columbia clubs. The scaedule of the N. A. L. U. concludes in leptember, and it is the intention that the trip of the Capital club should be made immediately after the final match, which is with Shamrocks. The present holders of the Minc cup have also a Western tour in contemplation, and the probabilities that Capitals, Shamrocks and a team from Winningey will figure in a tournament in the British Columbia capital with the plek of Capitals, Shamrocks and a team from Winipeg will figure in a tournament in the British Columbia capital with the pick of the Coast clubs. Such an event would easily eclipse anything ever attempted in the West, and as the British Columbia clubs are anxious to arrange the dates with the pick of the East, the tourney idea seems, likely to go through.

Mr. Shillington leaves for the West on Wednesday next, going first to Edmonton, whence, after a short stay, he will proceed to Vancouver, and discuss details with the British Columbians.

Lacrosse Championship Schedule
Vancouver, April 20.—Delegates to the special meeting of the B. C. A. L. A. talked for three hours this morning to adjust the dispute between the Vancouver and Westminster clubs regarding the schedule of games. Westminster wanted the opening championship game with Vancouver May 13, then later two

the match cannot secure a permit for the affair from the San Francisco board of supervisors. On Tuesday the board by one adverse vote declined to issue a permit. This action followed the recent exposures by the San Francisco grand jury, which unearthed considerable graft at tendant upon the fistic encounters at the Golden Gate. There was corruption at the city hall with regard to permits, and there was also a train of fixed fights and fake results, all of which were shown up under the searchlight of the grand jury.

FOOTBALL.

The Vancouver Celtics, who meet the Garrison at Oak Bay, arrived from Vancouver last evening and are in fine condition and have a stronger team than what represented them at Vancouver. Captain Goward, of the Victoria United, has been agreed on as referee, and the two teams will be as follows:

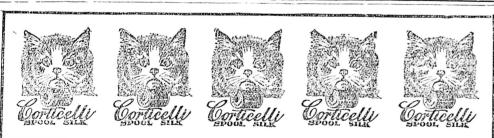

Celtics—Goal, McCaul; backs, Payne and Furness; halfbacks, Scott, Badger and Risk; forwards, McCallum, Stew-

and Risk; forwards, McCallum, Stew-art, Stretch, Lyneham and Dolg; re-serves, D. McCallum, J. Killick and E. Whyte. Garrison — Goal, Worrall; backs, Byrne and Williams; halfbacks, Ford, Paley and Symons; forwards, Hazel-wood, Constable, Provins, Crisp and Mattthews; reserves, Jones and Col-lins.

lins.
On Saturday the last game of the On Saturday the last game of the season will be played, the Vancouver Celtics meeting the Victoria United at Oak Bay at 3 o'clock. The Victoria team will line up with A. Peden, goal; Lorimer and Goward, backs; Thompson, Lorimer and Hart, halfbacks; Lawson, Lorimer, Schwengers, Wilson and Berkeley, forwards. The Vancouver team has not yet been decided on, but it will be practically the same as meets the Garrison today.

At a meeting of the Victoria Cricke Club the following were elected as the committee for this season: Hon. presi-dent, Sir Henri Joly de Lotbiniere; hon dent, Sir Henri Joly de Lotbiniere; hon, vice-presidents, Hon. C. E. Pooley, Dr. J. D. Helmcken, A. J. C. Galletly, Esq., and J. York, Esq.; president, Hon. Edgar Dewdney; vice-presidents, E. V. Bodwell, K. C., Dr. Cobbett, Hon. Justice Drake, George Gillespie, Hon. Justice Drake, George Gillespie, Hon. Justice Irving and Mr. Woolridge; captain, L. O. Garnett; vice-captain, A. Martin; hon. treasurer, L. S. V. Yorke; hon. secretary, J. C. Barnacle; management committee, E. W. Carr-Hilton, R. H. Swinerton, G. A. Taylor and J. W. D. Yorke. The following new members were also elected: Dr. O. M. Jones, T. B. Tye, H. A. Taylor, jun., W. A. Irving and W. B. Eberts.

The committee desire to see a large turn-out on Easter Monday, as a members' match has been agranced. The

For dressmaking and family sewing Corticelli Silk is the best silk made. For hand or machine use it has no

equal. Corticelli Silk runs smoothly in the needle; it is always even in size and always full length and full strength. Ask your dealer for "Corticelli," and refuse all substitutes.

Wash Silks.... are put up in patent holders.

which prevents waste by tangles or soiling; keeps each shade separate, and automatically measures a correct needleful. Recommended as the only proper way to put up filo and floss silks, and used by art societies everywhere.

Corticelli SKIRT PROTECTOR is of from -is of firm and even texture. When soiled, a sponge or brush makes it clean again, and no damage done. It has peculiar wearing qualities and perfectly straight selvage. For sale everywhere.

International Regatta International Regatta
San Francisco, April 20.—It is probable that the University of California
rowing crew may accept the invitation
of the James Bay Athletic Association
of Victoria, B. C., to participate in the international rowing regatta to be held in that city on May 24. The local crew has already arranged to meet the University of Washington in the inter-collegiate regatta to be held in Seattle on May 30.

THE PLAYHOUSES.

Business is picking up at the Victoria, where Baby June has made a pronounced lit with her neat little specialty act, embracing singing, dancing, contortion work, and a funny wee monologue turn, in which "the professor" takes one end of the stick to help out the infant. The Kleins' slient fun and Miss Mandeville's truly marvelous contortion feature stunt claim many expressions of amazement and admiration; and the Zinn's pony-ballet has been yastly improved by pruning and alcialin many expressions of amazement and admiration; and the Zinn's pony ballet has been vastly improved by pruning and alteration generally. Master Harold Hoff is singing in particularly good voice, and the motion pictures are full of fun. The present show holds the boards but today and tomorrow, special Good Friday arrangements providing for the usual matinee at 2:30 this afternoon, and three evening performances—at 7:30, 8:30 and 9:30. For next week the management promise a series of feature acts that will more than atone for any disappointment in the necessarily short programme for holy week. The headliners will probably be found in Pamihasikas' world-famed dog and bird circus—the superlative surprise in this class of popular diversion. In addition there will be Holmes and Holmes in their laughing success, "Uncle Jonathan's Visit'; the McCarvers in a colored comedy sketch; Roussell, the aerial ring artist; Annie Lesile Williams, a clever character soubrette; a new singer of the illustrated songs; and new moving pictures galore.

The Grand continued yesterday its record of "standin' em up" at each of the evening performances, the monologue of Dan Mason apparently proving the big special attraction, although the work of the musical comedy team, the weight lifter, the balladist, and the sleight-of hand expert each had its own large circle of admirers. There will be special matinee and evening performances today, and next week the management have still another carned laws and alteration and McAuley, black-face consolians and decapied contents to the file contents and the step of the file contents and decapied decapie

week the management have still another extra choice bill in reserve. Included are von Faussen and McAuley, black-face comedians and champion dancers; the Kil-tle trio a return), Bartlett and Collins, in contortion work, singing and dancing; Samson and Zaceho (another return of favorite performers), etc., etc.

At the Redmond yesterday good audiences for both matinee and evening shows cheered the hearts of the management, the evening finding the house filled almost to capacity for a revival of the standard melodrama, "The Two Orphans." This will again be the bill this afternoon, and in the evening "The Great Lighthouse Robbery," which proved a great drawing card when last offered, will be revived. The closing performance tomorrow evening will be "Prince Romero." Next week the Redmond company will be in Bellingham, and the Watson Stock Company will reopen their return with a matinee engagement, particulars of which will be found in the Sunday stage department.

U. S. ALIEN IMMIGRATION. Case of Imported Lace Weavers Again Before Courts.

Before Courts.

Washington, April 20.—A petition for a certificate of certiorari was filed in the Supreme court of the United States in the habeas corpus cases of Peter Pearson and Enoch Pearson, English lace weavers, who immigrated to the United States a year ago, and whose deportation was afterwards ordered on the ground that they came under contract with a lace manufacturer at Gouveneur, N. Y. The order was issued by a board of special inquiry after a similar board had acquitted them. The question presented is whether alien immigrants, having been duly admitted after full examination by duty authorized officers, may be subject to retrial on the same charge and without further evidence. This question never has been passed on.

NERVOUS DYSPEPSIA.

Mr. George Bolen, Spry, Bruce Co., writes: "I was troubled with nervous dyspepsia for some years, and after using nine boxes of Dr. Chase's Nerve Food I felt better than I had for years. Dr. Chase's Nerve Food Is certainly the best medicine I ever used, and I say so because I want to give full credit where it is due."

HOW A DOCTOR SAVED A LIFE.

An Englishman had occasion for a dector while staying in Pekin. "Sing Loo, gleatest doctor." said his servant: "savee my lifee once." "Really?" queried the Englishman. "Yes, me tellible awful," was the reply; "me callee in another doctor. He givee me medicine, me velly, velly badd. Me callee in another doctor. He come and give me more mediciae, make me velly, velly badder. Me callee in Sing Loo, He no come. He savee my life."

Hair and Finally Baldness.

NEW YORK STOCKS.

New York, April 20.—The principal influence in the trading was probably the Northern Securities situation. The announcement was made after the session that the \$155,000,000 of Northern Pacific stock would be admitted to be traded in on the stock exchange on the unlisted department on Monday next, was regarded as a danger to the speculative position in that stock and in the Northern Securities, owing to the market that will be afforded for the stock. The signing of the stock transfer tax bill at Albany was offered as a professed breach by many of the trade for their selling of stocks, on the ground that their operations would be greatly hampered and restricted by this law, which does not go into effect, however, until June. The embittered controversy in the Equitable Life Assurance Society was feared for its disturbing effect on confidence in financial conditions at large. The flurry in call money and the slump in the market aggravated the weakness of stocks and opposed an attempted late rally. The market cfosed weak at about the lowest. Bonds were weak in sympathy; total sales par value, \$3,030,000.

Noncy Markets.

What Glasgow Teaches Cities

Councillor Tells Canadians of Advantage of City-Owned Utilities.

Cheapest Tramway System in the World Pays Large Profits.

Toronto Globe.

Councillor James Willock, J. P., of Glasgow, who as a member of the corporation of that city has been prominent in the management of Its model municipal undertakings, has been in the city for the past few days, the guest of Mr. James Murray of the Murray Printing Company.

Mr. Willock has been a councillor of Glasgow for twelve years, and has been identified with the development of several of its most important municipal services. He is at present chairman of the electricity committee, and a member of the finance section of the gas committee. Mr. Willock was a visitor at the city final on Saturday, and to a representative of the Globe gave some interesting data regarding the success of his own city's municipal ownership experiences. That even Glasgow can make mistakes was admitted by Mr. Willock in discussing the results of the experiments in garbage disposal. Thirty years ago, he said, the city leased a large area of moss land at a shilling per annum for thirty years. The refuse was dumped upon this hitherto almost valueless property, with the result that at the end of the term it had become valuable arable land, worth in the market for farming purposes £2 per acre. The city's interest in the land, of course, ceased with the termination of the lease. Now the municipality buys its dumping grounds outright, reclaims the land, and grows upon it corn and other products for feed to be used in the city's barus.

Fifty-cent Gas "Thirty-three years ago," said Councillor Willock, "our gas supply, then in the hands of two companies, was bought at a valuation. We made the mistake of puting the value into perpetual annutites, which involved the payment of nine per cent. on £300,000 and 63 per cent. on £120,000. These £100 shares are now worth about £285, and we are now buying then up, offering as an inducement to the hold-ors £300 shares of convoration stock bedup, offering as an Inducement to the holders £500 shares of corporation stock bearing three per cent, interest for every share of the gas annulties. Within the past two years we have secured a large amount, and it is the intention to wipe the annulties out altogether. The revenue last year from the gas department was £819.913, the rate per thousand cubic feet being 2s, for motor power and 2s. 1d. for light. The rate allows for interest on all capital for a sluking fund which will clear off the whole capital in forty years, and we also provide large sums for depreciation of plant.

"Our water is supplied to a population

large sums for depreciation of plant.

"Our water is supplied to a population of 1,100,000, and we send into the city 62,000,000 gallons a day. The cost of construction, including the annuities to the old companies, which were bought up, amounted to four million spounds, but the domestic rate within the city limits is only 5d, per pound of rental. Beyond the limits water is supplied at the rate of 10d, per pound of rental, and for manufacturing purposes it is given at 3s. 4d, per hundred thousand gallons."

In response to a question regarding

purposes it is given at 3s. 4d. per hundred thousand gallons."

In response to a question regarding tramways, Mr. Willock said that the ralis for the traction lines were laid by the city twenty-four years ago, and that a lease was given a company to run over them for twenty years. At the end of that time the city took over the lines, and in one night the entire plant was changed, not one car or horse belonging to the company being accepted. Since then the municipality has inaugurated an entire system of overhead electrical haulage. Fares have been reduced fifty per cent, and the mileage has been doubled. "I think we have the lowest fares and the most comfortable ears in the world," said Mr. Willock, "and, furthermore, we have made large profits, and paid into the common fund four times as much as the company paid for its franchise. Mr. Young, who was formerly manager of the tramways, went to London to take charge of the Yerkes lines and Mr. Dalrymple, who is, it is reported, going to Chleago, and who was formerly lis assistant manager, is one of the most valuable of street railway men.

"By very department of our corporation."

was formerly his assistant manager, is one of the most valuable of street railway men.
"Every department of our corporation," said Mr. Willock, "has a separate system of bookkeeping, with all of the accounts independent of each other. All profits arising from any department are applied to that department only. In the case of the trainways the profits go to the reduction of the fares, and in the gas department to the reduction of those rites. A penny on our rates means £20,000. If that amount was given by one department to the corporation it would reduce the rates that much. The workingman with, say, a rental of £10 would benefit ten pennles. The unn with a rental of £100 would benefit 8s. 4d., although the workingman might

contribute to the utility carning the profit much more than the rich man. During the eleven years that I have been connected with the electricity committee our invested capital has increased from £300,600 to fail two of the largest turbine engines in Great Britain, ne feature of the development of the electrical plant has been that the increase in the use of gas has not been affected."

Mr. Willock, who is accompanied on this pleasure trip by his wife, will leave today for Ottawa, and will sail for home from Quebec.

GOOD FRIDAY SERVICES.

Special Devotional Exercises in a Number of City Churches.

Today being Good Friday appropriates services will be beld in a number of the city churches.

Today being Good Friday appropriates services will be beld in a number of the city churches. At Christ church cathedral the order to be observed will be as follows: 9 a. m., litany; 11 a. m., matins, ante-communion service and sermon by Canon Beanlands. 12 to 3—The service of "Three Hours," with addresses by Rev. C. Ensor Sharp, 7 p. m.—Evensong, with sermon by Rev. W. B. Allen. The order of services at St. Barnabas', church is as follows: Ante-communion, with reading, 9 a. m.; matins and sermon, 11 a. m.; "Three Hours' Devotion," 12 to 3; worshippers who are unable to spend the whole time in church are asked to enter or leave during the singing of the hymns; 7:30 p. m.—sermon, "The Story of the Cross" will be sung.

At the St. Paul's German Lutheran church there will be Easter services and Holy Communion at 10:30 a. m., and services with sermon at 7:30 p. m.

At the Church of Our Lord, Rt. Rev. Bishop Cridge will occupy the pulpit, services confmencing at 11 a. m.

AN ATTACK OF CROUP WARDED OFF.

"Our little girl, two and one-half years old, woke up coughing with the croup one evening recently. We happened to have some of Chamberlain's Cough Remedy on hand and gave her two doses of it. She went back to sleep and woke up next morning without a trace of cold. It is certainly a great medicine," says A. J. Luginbill, editor of Star, Villa Rica, Ga. An attack of croup can always be warded off by giving this remedy as soon as the croupy cough appears. It has been in use for many years and has never been known to fail. It contains no opium or other harmful drug and may be given to the smallest child with perfect confidence. For sale by all druggists.

It is a remarkable fact that, with lower premium rates than those charged by American companies, the Mutual Life of Canada has paid better results on its matured policies. A comparison of actual results of similar policies at maturity of endowment term furnishes indisputable evidence of this fact and is the most practical test that can be applied to any company. It pays to insure in the Mutual Life of Canada. R. L. Drury manager, 34 Broad street. *

GLORIES AND INCONVENIENCES.

Ship Othello Has to Give Bone of \$300 for the Two

Rate War Between the Northern Steamers-Whistling Buoys for Coast.

When the ship Othello was discharging her cargo of nitrate for the Victoria Chemical Works at this port two of her crew deserted, John Merchant and Antonio Molacelo, the former a Russian Pole, the latter a Chillano. The South American had been placed in the hospital suffering from rupture. Dr. G. L. Milne, Dominion immigration officer, on learning of the desertion of the two men, took action against the vessel, now loading lumber at Port Blakeley. Captain Walsh was compelled to give bonds for the two men The immigration officer asked that \$100 in cash be deposited for each of the deserters, but the captain demurred at this. Finally an indemnity bond was signed, sealed and delivered, guaranteed by L. G. McQuade & Co., agents of the vessel. for \$300, wherein the owners agreed to indemnify the King, his heirs, the Dominion government, the local corporation, in fact, any institution from the British Empire to the Old Men's Home, in case the deserters should become a public charge. Captain Walsh felt bitterly because of the action taken against the vessel.

FISHING SCHOONER

Kilmeny Leaves for Cruise Off West Coast-Kestrel After Poachers.

while out on her cruise to the Queen Charlotte islands, whither she had gone in quest of the American gentry who are said to be taking halibut in British waters, she will not relax her efforts to find something for her pretty little Nordenfeldt to do. Her next cruise is to be along the coast of Vancouver Island, where she may catch a foreigner or two in one or other of the solitary harbors of that lonely shore. She has seen many a fishing boat which displayed the stars and stripes, but the suspect was just outside the invisible line every time. The officers of the Kestrel might have their suspicions as to how long the had been on the right side of it, but nothing could be done."

SHIPMASTER DEAD.

Captain Houston of Pass of Melfort Expired at Salinas Cruz.

The British ship Pass of Melfori, which has arrived at Seattle, from Europe via Salinas Cruz, brought news of the death of Captain John Houston, who was master of the vessel. Captain Houston is said to have drank heavily on the voyage, and on arrival at Salinas Cruz he became insane and was taken to a hospital, where he died. The mate, Captain H. S. Cougall, brought the ship north to Puget Sound.

FOR SKAGWAY.

Princess May Sailed Last Night for the North—Miners for the North.

Steamer Princess May of the C. P. R. fleet salled last night for Skagway via Port Simpson and Wrangel. She had a fair complement of passengers. Among those who went north on the C. P. R. liner were Mr. Haskins of the Rosella Mining Company and ten miners. They will debark at Wrangel and proceed to the company's property up the Stikine in canoes. Machinery was taken in by the miners to complete the equipment of the property.

FOR WEST COAST.

Whistling Buoys for Coast.

D. G. S. Quadra is at the government wharf with two large whistling buoys on board. These buoys were manufactured at Yancouver for the Dominion government and are to be placed at points on the West Coast, one in the entrance to Port San Juan, the other at Amphitrite Point, in Barkley Sound. The buoys are of a new type on this coast, but in other localities they have given satisfaction. They are large, lengthy affairs, and their weight is considerable. They have a hollow cylinder in the centre, fitted with valves, and the pounding of the waves forces air through the valves to cause the whistling. The Quadra will leave at the beginning of the week to place the buoys.

RATE WAR PREDICTED.

Steamers in Northern Coast Business May Cut Rates Shortly.

May Cut Rates Shortly.

A rate war among the steamers operated between Vancouver and Northern Brigish Columbia ports before the end of the zonders of the zonders and the columbia ports before the end of the zonders are supported by Mr. B. W. Greer, general freight agent of the C. P. R., says the Vancouver Province.

"A great many vessels will be operated to the country of the co

MARINE NOTES.

MARINE NOTES.

British ship Beacon Rock, which is on the berth at Liverpool for R. P. Rithet & Co., to bring general cargo to Victoria, has a unique record. She was posted as missing once by Lloyds, and yet arrived. The vessel was on a voyage from an Australian port to Duncidin. New Zealand. She was overdue and reinsurance was quoted at increasing rates until finally the vessel was given up as lost. It seems that she had her rudder disabled and drifted across to the South American coast.

Chillan ship Antofagasta is here shipping a crew at Esquimait for Chill. She loaded lumber at Chemainus.

Steamer Oanfa is due from Liverpool via the Orient with general cargo.

This is the season for Beer and you should drink the best There is none quite equal to Lemp's Extra Pale the choicest product of the brewer's art. At Its home in St. Louis more Lemp's is used than all other Beers combined; this is suffici ent evidence of its quality. No other Beer, however much it is advertised, can compare with Lemp's "Extra Pale." None but first-class places handle the Lemp's. The price is a trifle more than some imported Beers but the quality is far superior Therefore, see that you get the Lemp's "Extra Pale." Imported and guaranteed by us.

NEWS FROM GRAND FORKS.

NEWS FROM GRAND FORKS.

Grand Forks, April 18.—A strike of considerable importance to this city has just been made on the Bonetavista group of claims on Hardy mountain, some two miles from the heart of the city. This group consists of four claims, called the Bonetavista, Columbia, Salena and Assene, and are all owned by one W. E. Capron, who has just made the rich strike on the Bonetavista property. The rich find consists of over four feet of mineralized quartz, which assays high in gold, copper and silver. Although the strike was only made a few days ago, representatives of Rossland and Spokane capitalists have already been inspecting this group with a view of dealing for the same. The rich quartz lead on this group appears to run east and west. As a result of this new discovery several adjoining claims are being sought after among which is the Standard, owned by Fred Clyde, an old-time mining man and prospector of this section, the quartz lead appearing to cross the Standard location. These properties are all situated close to the Great Northern railway track, making transportation facilities at their very door. In view of the above facts, which have been carefully collected by the correspondent of The Daily Colonist, there appears to be no doubt but that the Bonetavista group will in the immediate future be added to the list of shippers from this section, and that it will be one of the few paying mines that lie at the very threshold of Grand Forks.

Ed. Miller, an employee of the Gran-by smelter, while engaged in unloading some heavy machinery from the railway cars, strained his back yesterday, and was in quite a serious condition for some time. The last report is that he is pro-gressing as rapidly as can be expected. He is a brother of E. Miller, city solici-tor.

Old-timers in this district state that owing to the searcity of snow during the past winter and the gradual approach of spring weather there will not be high water this summer.

A. S. Atwood, manager for Hunter, Kendrick & Co. here, has just closed a deal for the purchase of John Morrell's ranch up the north fork, near Lynch creek. The land lies in a direct line with the proposed survey line of the Kettle valley line railway and offers an ideal site for a townsite.

site for a townsite.

A Burley steam arill has just been in stalled on the Seattle property, up the north fork, and other development work is being prosecuted as rapidly as possible. This property was only recently bonded by W. T. Hunter of Greenwood

They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It mereases the vital power, cleanses the system of clorging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

"Your 'Golden Medical Discovery is a sick man's friend," wites Geo. N. Turner, Esq., (Ex. Financial Secretary International Brotherhood of Tennsters), 298 Galliornia Street, Denver, Colo. "For the past seven years my health gradually failed. I lost my appetite, became nervous and debilitated, very despondent and unable to sleep. No medicine helped me until I tried Dr. Pierce's Golden Medical Discovery. It put new life into my veins and increased vitality until I cond once more endoy life and attend to my cond once more endoy life and attend to my cond once more endoy life and attend to my cond once more endoy life and attend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once more endoy life and actend to my cond once and aday will regulate and cleanse and invige. Dr. Pierce's Peliets—only one or two a day will regulate and cleanse and invigorate a foul, bad Stomach, torpid Liver, or sluggish Bowels.
